SFE SERIES

This Elbow adapter is made of PVC and can be used for irrigation and O.E.M applications. There is a wide variety of configurations available for use with Polyethylene pipe sizes 1/2" through 2". It conforms to ASTM D 2609 and is NSF certified for use with potable water. Female NPT thread sizes are 1/2", 3/4", 1", 1-1/4", 1-1/2" and 2". Barb sizes range from 1/2" to 1-1/2".

PINCH VALVE

This Acetal pinch valve controls the flow through by flexing tubing from zero to full flow. Since the fluid being delivered never comes in contact with the valve, there is no fear of contamination. This is a long lasting reusable alternative to other fluid delivery valves. The body has an easy to read metered scale on the side for ease of use.
